

architecture@10

The next generation of
architecture in Asia
+ New building technologies
and products

architecture@10

Order form

This year, *architecture@10* features over 80 future projects in Australia, China, Hong Kong, India, Indonesia, Korea, Malaysia, Middle East, Philippines, Singapore, Thailand and Vietnam.

Each profile includes a description, site plans, floor plans, elevations, renderings and summary information. These projects are selected from more than 100,000 future projects reported by BCI Asia and BCI Australia researchers. In compiling information on these projects, BCI researchers interview half a million architects, developers, engineers and contractors.

Besides projects, *architecture@10* also reviews building technologies in a dedicated section called Technologies@10 that enable architecture to evolve rapidly, providing a reference guide of innovative and intelligent solutions for architects, engineers and developers. Each review is presented in an easy-to-read format describing the products and/or services of a single leading manufacturer in each field.

I would like to place an order for *architecture@10* for only S\$45 (including GST) per copy plus postage.
