EFFECTIVE SPECIFICATION SELLING

Becoming a Trusted Supplier

OVERVIEW:

Gone are the days of 'features and benefits' selling to design specifiers, it's not enough to get you over the line in this competitive construction market. To get specified, stay specified and build relationships your skills need to go beyond knowing your product. Design specifiers want you to understand their project needs and challenges, provide a best fit solution and become someone they can trust and rely on. This is exactly what the Effective Specification Selling Seminar focuses on – how you can become a trusted supplier.

TRAINING BACKGROUND:

To develop this seminar we have gone straight to the source, we've surveyed design specifiers across the Philippines asking them what they want from product suppliers when it comes to working with them on their projects. We also conducted interviews with top design specifiers to get some real life insights and stories on their experience working with product suppliers, who their favourite product suppliers are and what makes them stand out from the crowd.

TRAINING AGENDA:

Navigating the specification sales cycle – It's important to look at things from a 'project specific' perspective so we look at:

- » The journey a project takes from start to finish
- » What the design specifiers role is at each stage and what they are wanting from product suppliers
- » What other construction professionals have an influence on a specification (developers, main contractors and subcontractors)
- » How you can track your spec to ensure you stay specified

Understanding Design Specifiers – We will help you understand and analyse the characteristics of specifiers and engaging them effectively.

- » The difference in approaching Gen Y to more senior design specifiers
- » Choosing interesting topics for presentations, educate and establish a thought leader position in your industry
- » What kind of conversations do they want when speaking with you
- » What is the process they follow when looking at new products
- » How to make an effective first contact with a design specifier

Conducting impactful meeting – You only have a small amount of time to make an impact in a meeting with a design specifier, we'll show you how to add the most value.

- » What information design specifiers want to receive before a meeting and during a meeting
- » How to talk about the value of your product over the price
- » Conveying your unique selling points over your competitors
- » Excellent communication – how to connect and engage your audience in presentations and meetings
- » Creating engaging content to use in your meetings and presentations – topics design specifiers told us are important and interesting to them
- » Moving from a product centric approach to a client centric focus

Building relationships – How to build long term relationships with design specifiers so you are not just working with them on one project but many

- » How to best follow up with design specifiers after a meeting
- » Tips on building long term relationships and positioning yourself as a trusted supplier
- » How to create more project leads through utilising referrals

TESTIMONIALS:

"From this training I now have a great understanding of how and when to approach the key decision makers at the right time to get specified."

- Holchim

"I enjoyed this training with BCI and would recommend it to anyone in a specification role. I can't wait to attend another training, thank you BCI."

- Esscor

"The facilitator was great. I particularly enjoyed the insights from the survey, they were very helpful in understanding design specifiers and how I can help them on their projects."

- Philtech Glass Industries

"I now know how to maximise my meetings, create opportunities and the perfect timing for my follow up. It was an excellent day I learned a lot and feel more confident."

- James Hardie

"I took away that listening and asking questions are the key to excellent communication. I will be applying all of the relevant data from the training to make my presentations even better."

- Parex Group

"It was great to learn things from the architects perspective. This course has been great in helping me focus on being consultative and having a personal approach with my clients – being a trusted advisor not a sales person!"

- Dulux
