

BCI FORECASTER ORDER FORM

The BCI Forecaster is a **leading monthly indicator of construction market values entering the market**. It serves as an indispensable short term planning tool, designed to enable decision makers set realistic goals and parameters for their sales and operations teams. Construction start values are based on projects reported on a daily basis in **BCI Asia's real-time project leads database**. Data is provided for the respective country as a whole, for building and civil construction, as well as for six key construction sectors: residential, community, education, office, industrial and retail/ hotel (in each case broken down by public vs. private).

Please indicate the countries of interest, and whether you wish to receive a one-off report or 12 annual editions at a favourable subscription price. 10% discount for 3-4 countries, 15% discount for all countries covered.
